Final option only if ALL others fail 5 Reset Illustrator Preferences Quit Illustrator In the Finder menu bar, follow Go > Library (this may be hidden so hold down the Alt key to reveal it before clicking on the Go menu) Open the Preferences > Adobe > Adobe Illustrator [version\*] Settings > [local language] > folder Move the Adobe Illustrator Prefs file to your Desktop and then re-open Illustrator and it will create a clean new prefs file and menus should all be in default positions.. Set the Display Setting on OSX to mirror the laptop onto the HDMI monitor rather than extending the desktop.. Again that should force the menus to reposition or 3 Change the resolution on the Laptop and HDMI monitor temporarily.. Your computer will be at risk getting infected with spyware, adware, viruses, worms, trojan horses, dialers, etc while you are searching and browsing these illegal sites which distribute a so called keygen, key generator, pirate key, serial number, warez full version or crack for mac os x 10 4 11..
